Terms of Business

Booking Policy:

Orders placed by July 22nd will be confirmed in late August from total inventory. Orders placed after July 22nd will be confirmed from remaining stock available.

Prices:

Prices herein are for the trade only and cancel all previous prices offered by us. Prices are quoted in US dollars and are subject to changes without notice. All prices, F.O.B. Boring, Oregon.

Royalty:

A royalty fee on Registered, Patented, and Trademarked trees will be assessed in addition to the unit price in our catalog. If any tree has a royalty, and the fee is not listed in this catalog, the royalty will be billed and customer must pay.

Terms:

Thirty days Net from Date of Invoice unless otherwise arranged at time of sale. Discounts are applicable only when the terms are met. Cash or satisfactory references required before shipment from those unknown to us. *Interest charges at 2/3% per month or 8% per annum on all Past Due accounts, unless other arrangements are made prior to shipment.*

Grade Substitutions:

Grades are subject to growth, grade may change 1 (one) size without notice unless arranged in advance.

Minimum Order:

A minimum order of 300 trees or more would be our desire. This would allow the best possible freight rate on a combination load.

Cancellations:

All cancellations must be submitted in writing before October 15th. Cancellations after this date are subject to a 10% cancellation fee. *Please let us know before October 15th as we need to adjust our digging schedule.*

Shipping:

No charge for packing truck loads. We pack all of our stock with the greatest of care and our responsibility ceases when the stock is delivered to the carrier. We are not liable for delays in transit.

Invoicing:

Invoicing of freight charges is separate from nursery stock invoicing. Federal ICC regulations dictate payment within 7 days of freight invoice. Our truck brokers provide a prepaid freight service on the assumption that ICC regulations will be observed.

Claims:

Claims for incorrect counts, breakage, or unsatisfactory material must be made within 10 days from receipt of shipment. *Suspected damage or delay while in transit should be noted on the delivery bills of lading, and claims filed immediately with the transportation company,* as our responsibility ceases upon delivery of stock in good condition to the carrier. Claims regarding disease or mortality should be reported upon suspect and no later than June 15th following the date of delivery. We will gladly entertain such reports and make satisfactory adjustments when claims are substantiated. We shall in no case be liable for any sum greater than the amount originally received for said stock.

Guarantee:

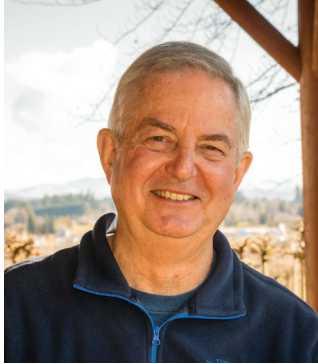

We give no Warranty, expressed or implied, as to the life, description, quality, productiveness or any other matter of any nursery stock, seeds or plants that we sell. It is mutually agreed that our total liability for any error, should stock prove untrue to name as labeled, shall be limited upon satisfactory proof, to our replacing free or refunding the purchase price thereof. We accept all orders subject to crop conditions, errors in counts, and with the understanding that the same shall be void should injury befall the stock because of hail, fire, frost or other causes beyond our control.

Volume Discount:

Discounts are applicable only when invoice payment terms are met; past due accounts are not eligible for discount allowances.
